

Balaji Venkateswaran

</>

Frontend Developer

Professional Summary

I am eager to kickstart my career with a cutting-edge technology opportunity. You will find me curious and enthusiastic, with a strong desire to learn and exceed your expectations. My objective is to continuously enhance my skills, collaborate with talented teams, and create captivating visual content that leaves a lasting impact on audiences.

Interpersonal Skills

Communication Skills
Attention to Detail
Creativity
Continuous Learning
Adaptability

Technical Skills

HTML
CSS
BootStrap
Javascript
ReactJs

Projects

REACTJS SPA

The goal of this project is to create a responsive single-page application (SPA) using React.js with Bootstrap for styling. The application will have a navigation bar, multiple sections and smooth scrolling between these sections.

ANIME DETAILS

The goal of this project is to create a responsive and user-friendly frontend webpage that provides detailed information about various anime series. The webpage leverages the Bootstrap framework to ensure a consistent and attractive design across different devices and screen sizes. <https://balajilogan.github.io/Bootstrap/>
